

# PREMIUM PERFORMANCE.

BMW stands for one thing above all else: premium performance. Fueled by the pursuit of advanced engineering, superb design, technological innovation and enhanced connectivity, this drive for perfection is at the core of BMW's brand identity. It's reflected in our latest models, like the new X2 and the all-new X5 and M5, and is the reason BMW has been regarded as one of the most progressive vehicle manufacturers in the world for the past century.
